

# High Altitude Monkey (HAM) 2.0

Ham is put through his paces during testing.  
Left to right: Awaiting a Command, thumbs up, and touchdown.

Larry AB1JC has been working on updating the HAM (High Altitude Monkey) 2.0. This is in preparation for a proposed flight soon. Ham has already earned his wings having made his first flight in November of 2019, reaching an altitude of over 6,000 feet.
